

# CANSORB-ALL™

***Faster • Cheaper • Environmentally Friendly***

*At last, a general purpose absorbent for any workplace. Based on the absorbent used for ocean and beach spills, CANSORB-ALL is a new recipe, developed for the automotive and industrial sectors. It is an entirely organic super absorbent product, which contains no silica – a known carcinogen. It works like a sponge – absorbing 5 times its weight. Each 8 pound bag can absorb up to 4 gallons of oil, gas, PCB'S, Paint, Antifreeze and even water. Other absorbents, such as clay require up to 50 pounds absorbing the same amount. Less material used means less clean-up and lower disposal costs.*

## **Absorption Capacity (lb. Oil / lb. Absorbent)**

# **CANSORB-ALL™**

## **List of Advantages**

- **Light Weight but Super Absorbant**
- 
- **Biodegradable**
- 
- **Non toxic – Non Abrasive – Non Leaching**
- 
- **Solidifies Instantly**
- 
- **Reduces Costs**
- 
- **Suppresses 90% of Explosive Vapors**
- 
- **Acceptable for Incineration; Produces 7000 B.T.U. per pounds**
