

WATERLESS SOAP WITH WAX

Practical and ecological approach where access to water is difficult.

Its polymer sealant ensures a shine for months.

Easily applied in one step.

Does not stain mat-finished trims or plastics.

Silverwax Waterless Soap with Wax is a more practical and environmentally friendly method of cleaning and waxing cars, motorcycles or boats in one single operation. Designed for sites with difficult water accessibility, this product will clean a vehicle's entire exterior components (body, exterior windows, mouldings, tires and wheel rims) with the exception of fabric convertible roofs. Will not stain plastics or dull mouldings. This sealant with polymers ensures exceptional shine and long lasting protection for months.
