

ODX LED SERIES

The LED lumens upgrade bulb series is the latest in ODX lighting technology. Brighter and longer lasting than halogen headlight bulbs, these LED conversion bundles offers extreme light output to enhance the visibility on the road. Whether you're looking to upgrade your lighting or simply replace you're out dated factory halogen style bulbs, ODX LED headlights offers motor vehicle drivers the utmost quality and performance in any conditions.

Featuring:

- **ODX uses only the best LED chip manufacturer available**
- **No modifications required. In most of the cases, LED fits as a plug and play within minutes**
- **Provides up to 10 times more light than stock halogen bulbs**
- **Never change your bulb again, our LED bulbs have a lifespan of 50000 hours**
- **Hassle-free compared to HID kits (No ballast, no risk of touching and breaking the bulb and no color fading over time)**
- **ODX LED bulbs creates a horizontal light beam on the road. Even if its 10 more powerful than OEM bulbs, it will never blind**
